Personal information

Surname(s) / First name(s) **Bellettato Cinzia Maria**

Address(es)

Telephone(s)

E-mail

Nationality Italian

Date of birth 11.02.1972

Gender

Desired employment / Occupational field

Ambition in an international level career with the objective of taking on challenges of global management roles within the health care sector.

Work experience

Dates From October 2019 to date

Name and address of employer Udine University Hospital (Italy)

Type of business or sector Public Health and Research

Occupation or position held **Project manager of the European Reference Network for Inherited Metabolic Diseases (MetabERN)**

She is responsible for ensuring the successful planning, design, execution, monitoring, and controlling of the network. In this role, she oversees a wide range of tasks, including:

- **Project Coordination and Reporting:**

- Coordinating work packages and tasks: Overseeing the execution of various projects, work packages, and activities within the network. Ensuring alignment with project objectives, timelines, and deliverables.
- Progress monitoring and reporting: Interacting with stakeholders, education, patients, and CPMS managers, as well as with various members of the network (WP and SNW leaders and responsible/co-responsible for various thematic groups of the network) to ensure adherence to the project's objectives. Tracking project milestones, evaluating outcomes, and preparing comprehensive reports on project progress, milestones, and outcomes to be shared with the Network Coordinator. Timely writing and submitting official final reports and any other relevant documentation addressed to the EU programme officers or any other internal and external stakeholders assuring adherence to the project's deadlines. Communicating project progress, challenges, and recommendations to the relevant parties.
- Project reporting and documentation: Preparing comprehensive Drafting, editing, and finalizing official network documents, such as policies, guidelines, and project proposals within the specified timelines.
- Strategic Issue Resolution: identifying issues and promptly interacting with the Network Coordinator and the European Commission for a quick resolution of the same; interacting with ASUFC staff, European policy managers, and representatives of the European Health and Digital Executive Agency (HADEA) responsible for European Reference Networks ensuring adequate exchange of necessary information and address any possible project-related requests
- Inter ERNs Activities: Establishing and maintaining of working relationships with other ERNs and participation in inter-ERN activities

- **Support to the ERN Coordinator:**

- Supporting the organization of Board meetings and other internal and external governance-related meetings or those related to network issues, with business trips when requested or necessary.
- Supporting the political dialogue with ministries, agencies, and other stakeholders that may be relevant in all areas of interest of the network.

- **Technical Management:**

- Overseeing the technical aspects of the network: Ensuring the smooth operation and functionality of the network's IT platform, including user support, troubleshooting, and system maintenance.
- Collaborating with IT teams and service providers: Coordinating with technical experts to implement and optimize network infrastructure, security measures, data management systems, and telecommunication solutions.
- Monitoring technological advancements: Staying up-to-date with emerging technologies and trends relevant to inherited metabolic diseases and healthcare management. Evaluating their potential impact on the network and recommending innovative solutions for improved efficiency and effectiveness.

- **Administrative Management:**

- Budget monitoring and financial management: Tracking project expenditures, managing the budget, and ensuring compliance with financial regulations and reporting requirements.
- Contract management: Overseeing the development and execution of contracts with partner organizations, vendors, and service providers. Ensuring adherence to legal and procurement procedures.

- **Meetings and Events Management:**

- Project meetings and events: Coordinating the planning, scheduling, and coordinating of physical and virtual meetings, conferences, workshops, and training sessions. Managing logistics, agenda preparation, participant coordination, and venue arrangements.
- Dissemination material and promotion: Supervising the Development and distribution of promotional materials, such as brochures, newsletters, and presentations, to raise awareness of MetabERN within scientific and patient

communities ensuring accurate and current information is available to stakeholders and the public

- **Network Management:**

- Members support and training: Providing assistance and support to physicians, researchers and network members addressing technical/scientific issues, conducting training sessions, and facilitating knowledge exchange.
- Stakeholder engagement: Coordinate the Collaboration with healthcare professionals, patient advocacy groups, researchers, and regulatory bodies. Building and maintaining relationships, addressing concerns, and fostering collaboration and cooperation.

- **Evaluation and Quality Assurance:**

- Evaluation and performance monitoring: Assessing the effectiveness and impact of the network's activities, monitoring project performance, and identifying areas for improvement. Implementing strategies to enhance performance and outcomes.
- Implementing quality standards: Developing and implementing quality assurance processes and procedures to ensure high standards in the delivery of services within the network.

- **Risk and Issue Management:**

- Identifying and managing risks: Proactively identifying potential risks and issues that may impact the network's progress or objectives. Developing risk mitigation strategies and implementing appropriate measures to minimize their impact.
- Problem-solving and decision-making: Addressing challenges, resolving issues, and making informed decisions in a timely manner to ensure project continuity and success.

- **Continuous Improvement:**

- Innovation and best practices: Staying updated with the latest advancements in inherited metabolic diseases, healthcare management, and project management. Identifying and implementing innovative approaches and best practices to enhance network operations.
- Feedback and lessons learned: Soliciting feedback from network members, stakeholders, and users. Incorporating lessons learned and feedback to drive continuous improvement and enhance the network's performance and impact.

Through effective technical and administrative management, in her role as Project Manager, she has played a critical role in ensuring the successful implementation, coordination, and advancement of the European Reference Network for Inherited Metabolic Diseases (MetabERN).

Dates	From May 2009 to date
Name and address of employer	Brains for Brain Foundation
Type of business or sector	The BRAINS FOR BRAIN Foundation is an International Task Force formed by outstanding scientists and clinicians leaders in the neurological field, grouped together with Biotech companies to create a coordinated and organized effort toward the comprehension of rare genetic diseases which affect and seriously damage the brain, in particular the children's one.
Occupation or position held	Scientific Officer-Medical Writer-Project Manager
Main activities and responsibilities	<ul style="list-style-type: none"> • Management of scientific European research projects and presentation of related outcomes ensuring, wherever possible and relevant, that an effective communication is undertaken and information is shared promptly with the academic and general public and external stakeholders, including government, industry, patients and family associations, and the media. She is also responsible of tracking project results implementing data collection procedures and verifying project data to ensure timely delivery of accurate results.

- Project assistant manager for the project Inherited NeuroMetabolic Diseases Information network (InNerMeD-I Network, European Commission, Executive Agency for Health and Consumers, Agreement number: 2012 12 12, Second Health Programme 2008-2013) and responsible for data elaboration and communication activities related to rare diseases. Her responsibilities entail ensuring that, wherever possible and relevant, effective communication and information is undertaken. She is also responsible for monitoring and reviewing project progress and managing project teams from project initiation to project completion
- Provision of technical support to the establishment of the European Reference Network for Rare Hereditary Metabolic Diseases (MetabERN), initiating and managing project governance to ensure effective operations.
- From June 2016 to September 2019 appointed as project manager of the European Reference Network for Inherited Metabolic Diseases (MetabERN) where she is responsible, under the supervision of the coordinator, Prof Maurizio Scarpa (also President of the B4B Foundation), for the successful planning, design, execution, monitoring, and controlling of national and European multicentric projects and networks in the field of rare diseases;

In this context, she is also responsible for the following tasks:

- Administrative management: budget monitoring, project reporting, drafting, editing and final checking of the network's official documents;
- Event management: organising project meetings and events, teleconferences and webinars, including dissemination material for network promotion inside scientific and patient communities. Editing and updating of website pages;
- Customer management: providing support to user researchers and network members in the use of the network IT platform.

Dates	From February 2011 to December 2015
Name and address of employer	Proediteam S.R.L.
Type of business or sector	Private company
Occupation or position held	CEO at Proediteam S.R.L.
Main activities and responsibilities	<p>Scientific/Medical communication & Information and communication technology: Proediteam was a company specialised in professional integrated scientific and medical communications services. The range of services includes medical writing and editing, as well as web-based strategy development and optimization.</p> <p>The company recognized the importance of combining scientific communication expertise with information technology skills to achieve success in promoting knowledge sharing and spreading. By leveraging knowledge and skills in these areas, Proediteam defined successful integrated communication programs and developed effective dissemination strategies on a global scale producing high-quality scientific documents that meet the highest standards of scientific integrity, accuracy, and clarity. In addition to medical writing and editing, Proediteam was also focused on web-based strategy development and optimization leveraging digital platforms to maximize the reach and impact of scientific and medical communications. This includes optimizing websites, creating engaging content, and utilizing social media and other online channels to disseminate scientific information to the intended audience.</p>

Dates	From April 2007 to May 2009
Name and address of employer	Brendan B.V. Telestone 8 Teleport Naritaweg 165nl-1043 Bw Amsterdam the Netherlands
Type of business or sector	R&D private company
Occupation or position held	Biomedical consultant and clinical monitor
Main activities and responsibilities	<ul style="list-style-type: none"> • Development and management of the PAP PILOT project aimed at testing and validating a newly developed method and apparatus for a non-invasive estimation of the pulmonary artery blood pressure. • Monitoring of clinical studies involving European Referral Paediatric Cardiology Clinics at the University of Mainz, Giessen and Mannheim, Germany. The studies were aimed at assessing the level of accuracy of the new and simple method for non-invasive acoustic estimation of pulmonary arterial pressure and the ability in easily, quickly and correctly acquiring, analysing and interpreting heart sound signals and providing measurements of pulmonary artery blood pressure that well correlate with the ones obtained through the invasive right heart catheterization performed through a Swan-Ganz catheter or obtained through doppler echocardiography.
Dates	From December 2007 to end of June 2009
Name and address of employer	Istituto di Istruzione Superiore "L. Einaudi" Via S. Nicolò, 31 Via Montegrappa, 31 45021 Badia Polesine (Rovigo) Italy and ICS Trecenta (Rovigo) Italy
Type of business or sector	Education
Occupation or position held	Secondary school teacher
Main activities and responsibilities	Teacher of Nutrition, Mathematics and Science
Dates	From January 2007 to December 2007
Name and address of employer	Biomolecular and Pharmacology Centre, Medical Oncology Division at Rovigo's Hospital (Azienda UISS 18, Rovigo) Italy
Type of business or sector	Biomolecular and Pharmacological research
Occupation or position held	Research Fellow
Main activities and responsibilities	<ul style="list-style-type: none"> • Management of the Project "Human non-small cell lung cancer (NSCLC): experimental ex vivo model for the study of synergy of drug cytotoxic effects. • Evaluation and prediction of individual drug dose-response in patients affected by lung cancer • Establishment of more effective patient-specific personalized therapy
Dates	From October 2002 to June 2005
Name and address of employer	Imperial College School of Medicine at St Mary's, National Heart and Lung Institute, Department of Experimental Medicine - Norfolk Place - London W2 1PG UK
Type of business or sector	Research
Occupation or position held	Research Fellow/PhD Student
Main activities and responsibilities	<p>Scientific collaboration with Prof. S.L. Jonhston (London UK), on the following research projects:</p> <ul style="list-style-type: none"> • The role of macrophage IL-15 production in innate antiviral immune responses" (ERS LONG TERM FELLOWSHIP). • Role of respiratory viral infection in chronic obstructive pulmonary disease exacerbations. • Evaluation of epithelial cells immune response to rhinovirus and respiratory syncytial virus infections: role of costimulatory molecules expression. • Respiratory viruses, asthma & chronic obstructive pulmonary disease (COPD).
Dates	From June 2001 to October 2001
Name and address of employer	Imperial College School of Medicine at St Mary's, National Heart and Lung Institute, Department of Experimental Medicine - Norfolk Place - London W2 1PG UK
Type of business or sector	Research

Occupation or position held	Research fellow (European Respiratory Society Fellowship)
Main activities and responsibilities	<p>Scientific collaboration with Prof. S.L. Johnston (London UK), on the research projects:</p> <ul style="list-style-type: none"> • "The role of viral infection in chronic obstructive pulmonary disease exacerbations. Techniques of respiratory virus isolation".
Dates	From May 1999 to May 2004
Name and address of employer	Research Centre on Asthma and COPD Department of Clinical and Experimental Medicine University of Ferrara, Italy.
Type of business or sector	Public Health and Research
Occupation or position held	Research assistant and PhD student
Main activities and responsibilities	<ul style="list-style-type: none"> • Evaluation of airways inflammation: sampling, processing and analysis of peripheral blood, nasal aspirate, sputum, bronchoalveolar lavage, bronchial brushing, bronchial biopsies, surgical specimens in patients with Asthma and COPD. • Techniques of Cyto-Histochemistry, Cyto-immunohistochemistry. • Lymphocytes isolation from blood and lymph node. • Analysis of condensed exhaled breath vapours in asthmatics and COPD patients. • Cell culture. • Virus culture and propagation. • 5-6 July 1999, 6-7, 13-14 September 1999, 2 November 1999, 7-8, 14-15, 22-23 February 2000 • taught and trained medical representatives.
Dates	From 5 to 16 February 2001
Name and address of employer	Imperial College School of Medicine at St Mary's, National Heart and Lung Institute, Department of Experimental Medicine - Norfolk Place - London W2 1PG UK
Type of business or sector	Research
Occupation or position held	Research assistant
Main activities and responsibilities	<ul style="list-style-type: none"> • Cell culture. • Virus culture and propagation. • Molecular techniques including PCR. • Primary culture of airway epithelial cells from brushing and biopsy specimens
Dates	From August 1998 to May 1999
Name and address of employer	Medical Biotossicological section of the ex- P.M.P. of Rovigo (now A.R.P.A.V) Italy
Type of business or sector	Public Health
Occupation or position held	Assistant biologist
Main activities and responsibilities	<ul style="list-style-type: none"> • Microbiological analysis of food and water. • Valuation of air quality (indoor and outdoor). • Use of bio-indicators for environmental pollution. • Clinical and diagnostic analysis. • Control quality and ring tests. • Project "Quality Management System".
Dates	From June 1998 to October 1998
Name and address of employer	Private company "AGM" Badia Polesine, (Rovigo) Italy
Type of business or sector	Consultancy
Occupation or position held	Food safety consultant

Main activities and responsibilities	<ul style="list-style-type: none"> • Application of Dlgs 193/07 (ex 155/07): Development and implementation of HACCP plan. • Identification of hazards. • Determination of Control Points and Critical Control Points. • Setting of Critical Control Limits. • Monitoring of Critical Limits. • Application of Corrective Actions when monitoring indicates that Critical Limits have not been met. • Establishment of an effective Recording Systems. • Establishment of appropriate Verification Procedures.
Dates	From October 1997 to June 1998
Name and address of employer	Private company BIOECOSTRUTTURE S.r.l (Ferrara), Italy
Type of business or sector	Consultancy
Occupation or position held	Ecological consultant
Main activities and responsibilities	Biological remediation: rehabilitation of natural resources and maintenance of environmental quality using selected bacteria cultures and techniques of biological interference competition.
Education and training	
Dates	2021-2022
Title of qualification awarded	Corso di perfezionamento in Project Management
Principal subjects/occupational skills covered	<ul style="list-style-type: none"> • Project Management Methodology: Understand project management methodology and its application. • Agile Project Management & SCRUM: Explore Agile Project Management and SCRUM techniques for flexible project execution. • Innovation Management and Project Management in European Projects: Manage innovation in European projects through effective project management strategies and develop proficiency in using project management software for efficient planning and execution. • Professional Use of Project Management Software • Apply acquired knowledge to practical scenarios, including project planning, risk assessment, and communication • Continuously enhance project management skills through learning and professional development opportunities.
Name and type of organisation providing education and training	University of Udine, Italy
Dates	16 febbraio 2021
Title of qualification awarded	Corso Introduzione al project management in sanità
Principal subjects/occupational skills covered	Project management in the healthcare context: Using Project management methodology and placing a strong emphasis on achieving objectives, which must be clearly and thoroughly articulated in terms of expected outcomes and actions, while adhering to defined resources and timelines. drafting, managing, and reporting on healthcare projects related to strategic objectives or dedicated funding (such as regional or national calls for proposals, the European Union, international healthcare cooperation, etc.)
Name and type of organisation providing education and training	Fondazione Gimbe – Bologna, Italy

Dates	22 January 2018.
Title of qualification awarded	Workshop on the preparation of final technical and financial reports of the European reference networks SGAs, organised by the ec (
Principal subjects/occupational skills covered	Project Management principles, methods and practices
Name and type of organisation providing education and training	European Commission Consumers, Health, Agriculture and Food Executive Agency Health Unit- Luxemburg
Dates	2000-2004
Title of qualification awarded	PhD in Experimental Respiratory Pathophysiology
Principal subjects/occupational skills covered	Respiratory viruses, asthma & chronic obstructive pulmonary disease (COPD).
Name and type of organisation providing education and training	University of Parma, Italy
Dates	1997-1998
Title of qualification awarded	Professional Training
Principal subjects/occupational skills covered	Ecological and Ethological Studies
Name and type of organisation providing education and training	University of Ferrara, Italy
Dates	1991-1997
Title of qualification awarded	Master Degree in Biology
Principal subjects/occupational skills covered	Population dynamics and management of natural resources. ecological aspects of parasitology (population dynamics and host-parasite interactions).
Name and type of organisation providing education and training	University of Ferrara, Italy
Level in national or international classification	110/110 summa cum laude
Dates	1987-1991
Title of qualification awarded	High School Diploma
Principal subjects/occupational skills covered	Mathematics, Physics, Biology, Italian, History,Phylosophy, English,
Name and type of organisation providing education and training	Liceo Scientifico P Paleocapa, Rovigo, Italy
Level in national or international classification	48/60

Social skills and competences

Team work: end-oriented work capacity and problem-solving attitude matured in the course of the many scientific projects developed in various national and international groups.

Intercultural skills: I am experienced at working in a European dimension as I lived in London for 4 year and worked as scientist and scientific officer for different European Research Institutes or Foundations taking part to many multicenter research studies and being speaker or rapporteur at international workshops and meetings. Thanks to these activities and experiences I gained the ability to rapidly integrate in diverse social groups, establishing and maintaining good working and personal relations with people of different national and cultural backgrounds. Today I know how to manage and guide group efforts by providing guidance, direction, and support for the purpose of achieving the assigned goal. I have the capacity of building constructive working relationships characterized by a high level of cooperation and mutual respect.

Organisational skills and competences

Throughout the years I have accumulated good organizational capacities then matured and reinforced in more than 10 years of hands-on experience in developing and managing EU funded research projects. I also have a matured experience in the organisation of international workshops and conferences.

The strong sense of responsibility and dedication characterize my professional attitude to assign priorities and work to deadlines.

Flexibility and adaptability are two of my main skills. This capacity to adapt to rapid changes and unforeseen needs without losing sight of objectives has been strongly reinforced by more than ten years of project management experience in multinational environment.

I have an excellent ability to work both in team and independently.

Technical skills and competences

Consolidated expertise in the field of molecular biology, health and medicine and in particular

- European Reference Networks (ERNs)
- Project Management
- Rare Inherited Metabolic diseases
- Innovative health approaches for the diagnosis and treatment of metabolic inherited diseases
- Respiratory diseases
- Viral infections
- Microbiology
- Oncology
- Parasitology

Very good knowledge of

- Grants Application and management of EU Funding Programmes;
- Project management

Excellent Medical writing skills: production and presentation of clear and concise scientific documents, reports, scientific papers, etc.

Very reliable and responsible with an outstanding ability to focus on goals ensuring that work is complete and accurate

Computer skills and competences	<p>Excellent computer proficiency in:</p> <ul style="list-style-type: none"> - PC Operation Systems: Windows XX, XP, Vista - Software Applications: Microsoft Office (Word, Excel, Access, PowerPoint, Outlook) - Internet and e-mail: Explorer, Netscape, Outlook Express, Eudora
Artistic skills and competences	<p>Painting and drawing puzzles. Victorian Era Role-playing</p>
Driving licence	Italian driving license B
Additional information	
Fellowship Awards	<p>2007 - Azienda ULSS 18 ROVIGO Laboratory of Pharmacology and Molecular Biology - Medical Oncology Division, San Luca's Hospital, Trecenta, (Rovigo) Italy Fellowship " Extracellular matrix metalloproteinases (MMPs) and tissue inhibitors (TIMPs) in human malignant epithelial tumours: evaluation of gene expression profiles in response to synthetic inhibitors for a future personalized molecular therapy".</p> <p>2003 - British Lung Foundation/Allen & Hanbury's ERS Travel Fellowship 2003.</p> <p>2002 - European Respiratory Society long term research fellowship October 2002 – 2003 regarding the project: The role of macrophage IL-15 production in innate antiviral immune responses" at Imperial College School of Medicine at St Mary's, National Heart and Lung institute, Department of Experimental Medicine, Imperial College London, UK.</p> <p>2002 - The UCB Institute Of Allergy Scholarship Awards 2002 "the role of costimulatory pathways ICAM-1/LFA-1, B7/CD28 and MHC class 1/CD8 in the anti-rhinovirus immune response" at Imperial College School of Medicine at St Mary's, National Heart and Lung institute, Department of Experimental Medicine, Imperial College London, UK.</p> <p>2002 - EAACI short term fellowship project: "expression of costimulatory molecules MHC-class I, B7-1/2 and ICAM-1 on respiratory epithelial cells and their possible modulation by rhinovirus infection" at Imperial College School of Medicine at St Mary's, National Heart and Lung institute, Department of Experimental Medicine, Imperial College London, UK.</p> <p>2001 - European Respiratory Society short term fellowship 5 June to 5 October 2001 "The role of viral infection in chronic obstructive pulmonary disease exacerbations. Techniques of respiratory virus isolation" at Imperial College School of Medicine at St Mary's, National Heart and Lung institute, Department of Experimental Medicine, Imperial College London, UK.</p> <p>1999 - Winner of Biologists competitive examination for admission to " Biologist Professional Plans", Sanitary Unit n. 18 Rovigo Italy.</p>

Orphanet J Rare Dis. 2020 Jan 6;15(1):3. doi: 10.1186/s13023-019-1280-5. PMID: 31907071; PMCID: PMC6945588.

24 The impact of COVID-19 on rare metabolic patients and healthcare providers: results from two MetabERN surveys.

Lampe C, Dionisi-Vici C, Bellettato CM, Paneghetti L, van Lingen C, Bond S, Brown C, Finglas A, Francisco R, Sestini S, Heard JM, Scarpa M; MetabERN collaboration group.

Orphanet J Rare Dis. 2020 Dec 3;15(1):341. doi: 10.1186/s13023-020-01619-x

25. Challenges in Transition From Childhood to Adulthood Care in Rare Metabolic Diseases: Results From the First Multi-Center European Survey.

Stepien KM, Kieć-Wilk B, Lampe C, Tangeraas T, Cefalo G, Belmatoug N, Francisco R, Del Toro M, Wagner L, Lauridsen AG, Sestini S, Weinhold N, Hahn A, Montanari C, Rovelli V, Bellettato CM, Paneghetti L, van Lingen C, Scarpa M.

Front Med (Lausanne). 2021 Feb 25;8:652358. doi: 10.3389/fmed.2021.652358. eCollection 2021

26. Social and medical needs of rare metabolic patients: results from a MetabERN survey.

Sestini S, Paneghetti L, Lampe C, Betti G, Bond S, Bellettato CM, Maurizio S.

Orphanet J Rare Dis. 2021 Aug 3;16(1):336. doi: 10.1186/s13023-021-01948-5.

27. One year of COVID-19: infection rates and symptoms in patients with inherited metabolic diseases followed by MetabERN.

Paneghetti L, Bellettato CM, Sechi A, Stepien KM, Scarpa M. Orphanet J Rare Dis. 2022 Mar 4;17(1):109. doi: 10.1186/s13023-022-02247-3. PMID: 35246188; PMCID: PMC8894822

Proceedings of National meetings

1. Dezfuli BS, Maynard BJ, Bellettato CM(Relatore), Rossi R.

Interazione crostaceo-acantocefalo: dinamica d'infestazione del parassita e modifiche del comportamento dell'ospite.

Atti del 58° Congresso dell'Unione Zoologica Italiana; Cattolica, 24-28 Settembre 1997.

2. Bellettato CM, Grapeggia M, Sartori F, Ferrazzi E, Gusella M.

NSCLC: Utilizzo di un modello sperimentale ex vivo per studi di citotossicità ed interazione tra farmaci.

24° Congresso Nazionale della Società Italiana di Chemioterapia, Novembre 2007 in Farmaci e terapia 2007, 24(suppl 1): 88-89.

3. Franceschetti P, Brusca S, Bellettato CM, Marinelli R, Potenza R, Gusella M, Ferrazzi E.

Valutazione del danno genotossico indotto da agenti chemioterapici in linfociti umani provenienti da donatori sani.

24° Congresso Nazionale Società Italiana di Chemioterapia in Farmaci e terapia, 2007, 24(suppl 1): 76-77.

4. Brusca S, Franceschetti P, Bellettato CM, Gusella M, Ferrazzi E.

Meccanismi di riparo del DNA in cellule U937 trattate con bleomicina e doxorubicina.

24° Congresso Nazionale della Società Italiana di Chemioterapia in Farmaci e

terapia 2007, 24(suppl 1):75.

Proceedings of International meetings

1. Maynard BJ, Dezfuli BS, Bellettato CM, Wellnitz TA.

Pomphorhynchus laevis (Acanthocephala) in *Echinogammarus stammeri* (Amphipoda): Parasite loads, infection rates, and altered behaviours.

Acta of 7th European Multicollloquium of Parasitology; Parma, 2-6 September 1996.

2. Papi A, Romagnoli M, Bellettato CM, Baraldo S, Casoni GL,

Ciaccia A, Fabbri LM.

Increased sputum eosinophils and exhaled NO, but not increased airway hyperresponsiveness, in asthmatics with irreversible airflow limitation as compared to patients with COPD.

2000 ALA/ATS International Conference; Toronto, Ontario, Canada May 5-10.

2000 March supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n° 161, NO:3, A812 - Abstract Issue.

3. Papi A, Caselli M, Casoni GL, Zaffoni E, Bellettato CM, Fabbri LM, Ciaccia A.

Helicobacter pylori seroprevalence is increased in chronic bronchitis but not in asthmatic patients.

2000 ALA/ATS International Conference; Toronto, Ontario, Canada May 5-10.

2000 March supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n° 161, NO:3, A812 Abstract Issue.

4. Papi A, Bellettato CM, Zanin A, Romagnoli M, Casoni GL, Busljetic K, Turato G, Saetta M, Fabbri LM.

Airway inflammation in asthma and chronic obstructive pulmonary disease (COPD) with a similar degree of irreversible airflow limitation.

2001 ALA/ATS International Conference, San Francisco, California, U.S.A. May 18-23.

2001 April supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n° 163, NO:5, A80 Abstract Issue.

5. Saetta M, Panina-Bordignon P, Turato G, Mariani M, Bellettato CM, Papi A, Zanin A, Buonsanti C, Mapp CE, Maestrelli P, Sinigaglia F, Fabbri LM.

Increased expression of CXCR3 in peripheral airways of smokers with COPD.

2001 ALA/ATS International Conference, San Francisco, California, U.S.A. May 18-23.

2001 April supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n° 163, NO:5, A78 Abstract Issue.

6. Romagnoli M, Chanez P, Vachier I, Bellettato CM, Larbi Maakel, Casoni GL, Papi A, Sala A, Folco G, Bousquet J, Godard PH, Fabbri LM.

Urinary LTE4 increases during exacerbation of COPD in elderly.

2001 ALA/ATS International Conference, San Francisco, California, U.S.A. May 18-23.

2001 April supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n° 163, NO:5, A768 Abstract Issue.

7. Panina-Bordignon P, Mariani M, Casoni GL, Bellettato CM, Papi A, Fabbri LM, Sinigaglia F.

TH2 Cell recruitment into Human asthmatic airways is dictated by specific chemokine receptors.

2001 ALA/ATS International Conference, San Francisco, California, U.S.A. May 18-23.

2001 April supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n° 163, NO:5, A521 Abstract Issue.

8. Papi A, Panina-Bordignon P, Mariani M, Di Lucia P, Casoni GL, Bellettato CM, Buonsanti C, Miotto D, Mapp CE, Villa A, Arrigoni G, Fabbri LM, Sinigaglia F.

Allergen challenge increases the number of airway TH2 cells expressing C-C chemokine receptors CCR4 and CCR8.

2001 September supplement of the European Respiratory Journal, Volume n° 18, NO:33, P3553 Abstract Issue.

9. Papi A, Romagnoli M, Casoni GL, Bellettato CM, Ciaccia A, Fabbri LM.

Pulmonary function and blood gases in asthma and COPD with partially irreversible airflow.

2001 September supplement of the European Respiratory Journal, Volume n° 18, NO:33, P1476 Abstract Issue.

10. Saetta M, Panina-Bordignon P, Turato G, Mariani M, Maestrelli P, Bellettato CM, Casoni GL, Papi A, Sinigaglia F, Fabbri LM.

T-lymphocytes infiltrating the peripheral airways in COPD are Tc1 expressing CXCR3.

2001 September supplement of the European Respiratory Journal, Volume n° 18, NO:33, P1092 Abstract Issue.

11. Romagnoli M, chanez P, Vachier I, Bellettato CM, Meschiari e, Papi A, Fabbri LM,

Characteristics of Exacerbations of moderate-Severe COPD

2002 ATS International Conference, Atlanta, Georgia, U.S.A. May 17-23.

supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n°, NO:, B322 Abstract Issue

12. Casolari P, Caramori G, Bellettato CM, Romagnoli M, Casoni G, Ciaccia A, Barnes PJ, Adcock IM, Fabbri LM, Papi A.

Differential activation of P65 protein in alveolar macrophages and neutrophils in COPD sputum: effect of exacerbation

2002 ATS International Conference, Atlanta, Georgia, U.S.A. May 17-23.

supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n°, NO:, C105 Abstract Issue.

13. Sietta M, Baraldo S, Turato G, Beghè B, Zanchetti S, Casoni GL, Bellettato CM, Zuin R, Fabbri LM, Papi A.

CD8+ T-Lymphocyte infiltration in the lymph nodes of smokers with Chronic Obstructive Pulmonary disease

2002 ATS International Conference, Atlanta, Georgia, U.S.A. May 17-23.

supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n°, NO:, C105 Abstract Issue.

14. Di Gregorio C, Caramori G, Casolari P, Wu R, Carlstedt I, Bellettato CM, Mapp C, Boschetto P, Adcock IM, Barnes PJ, Ciaccia A, Fabbri LM, Chung KF, Papi A.

Mucin expression in the bronchiolar epithelium of patients with chronic obstructive pulmonary disease.

European Respiratory Society Annual congress 2002.

15. Caramori G, Casolari P, Casoni GL, Tomita K, Bellettato CM, Mapp C, Boschetto P, Chung KF, Barnes PJ, Adcock IM, Ciaccia A, Fabbri LM, Papi A.

Cytoplasmatic expression of p21^{CIP1/WAF1} is increased in endoalveolar macrophages of smokers.

European Respiratory Society Annual congress 2002.

16. Baraldo S, Sietta M, Zuin R, Turato G, Beghè B, Balestro E, Casoni GL, Bellettato CM, Fantoni U, Lauro S, Fabbri LM, Papi A.

A decrease in CD4/CD8 ratio in the lymph nodes of smokers is related to airflow limitation and cigarette consumption.

European Respiratory Society Annual congress 2002.

17. Chicca M, Maranini G, Bellettato CM, Papi A, Ciaccia A, Pinamonti S.

Reactive Oxygen species production in human alveolar and bronchial cells infected with rhinovirus HRV16.

Free Radical Biology & Medicine December 2002.

Oral Presentation National Meetings

1. Dezfuli BS, Maynard BJ, Bellettato CM(Relatore), Rossi R.

Interazione crostaceo-acantocefalo: dinamica d'infestazione del parassita e modifiche del comportamento dell'ospite.

Atti del 58° Congresso dell'Unione Zoologica Italiana; Cattolica, 24-28 Settembre 1997.

2. CM Bellettato

Proposta di realizzazione di un sito web e di un Gruppo di Studio Italiano per le gangliosidosi GM1.

II° Expert Meeting sulle gangliosidosi GM1, Firenze Hotel Londra, Venerdì 8 Febbraio 2013.

Oral Presentation International Meetings

RICERCA INNOVAZIONE E COMPETITIVITA':QUALI VANTAGGI PER IL PAESE E PER I PAZIENTI? Il farmaco: un settore trainante per la ricerca e lo sviluppo?

La rete di ricerca INNERMED

Camera dei deputati Palazzo Marini – Sala delle Colonne 3 Dicembre ROMA

3. CM Bellettato ERNs at work: Education and Training 18 Maggio 2021 Virtual Meeting

1. Minisymposium Interaction between allergen and infection in asthma

C.M. Bellettato, I.M. Adcock, K. Ito, G. Caramori, P. Casolari, A. Ciaccia, P.J. Barnes, S.L. Johnston, A. Papi.

Rhinovirus infection reduces glucocorticoid receptor nuclear translocation in airway epithelial cells.

2003 ATS International Conference, Seattle, Washington, U.S.A. May 16-21.

supplement of the American Journal of Respiratory and Critical Care Medicine, Volume n°167, NO:7, A578 Abstract Issue.

2. Acute exacerbations of asthma and COPD

C.M. Bellettato, I.M. Adcock, K. Ito, G. Caramori, P. Casolari, A. Ciaccia, P.J. Barnes, S.L. Johnston, A. Papi.

Rhinovirus infection reduces glucocorticoid receptor nuclear translocation in airway epithelial cells.

13th ERS Annual Congress, Vienna, Austria, September 27 – October 1, 2003.

Supplement of the European Respiratory Journal, Volume n°22, supplement 45, 3554 Abstract Issue

3. Networking and widespread of scientific content to reduce the knowledge gap

C.M. Bellettato

Inherited NeuroMetabolic Diseases Information Network

7th FORESIGHT TRAINING COURSE Castellaneta Marina (Italy), October 2, 2014

.

3 International Networking in Rare Diseases.

C.M. Bellettato

The European Reference Network for Hereditary Metabolic Diseases, MetabERN

The 5th International Conference on Rare Diseases Budapest, Hungary -30

November - 1 December 2023
