

EDEN 2nd Consortium Meeting at the University of Udine, 18th – 19th June, Italy

22nd July 2019

In the end of June 2019 in Udine, EDEN partners have met for the 2nd Consortium Meeting. The aim of the meeting was to present the status of the project and to discuss about the next steps.

They have been two fruitful days in which the partners worked together, particularly focussing on how to better boost the collaboration among carers, civil society and healthcare professionals.

EDEN Consortium Partners. 2nd Consortium Meeting, Udine (Italy)

During the first day, the project partners from the University of Udine and ECHAlliance showed the results of the desk research and the preliminary analysis of the carers needs. They presented the state of the art of the existing knowledge about the services, organisations and approaches to dementia's care in different territories, giving specific attention to the needs of carers, local exemplary practices, and the mechanisms that facilitate the relationship between formal and informal care givers.

During the second day co-creation working groups have been dedicated to the definition of attractive tools to be used to properly improve the collaboration among the EDEN's three target groups.

During the meeting, the partners had the opportunity to visit the CSAF – Simulation Center and High Education of Udine University a modern and well-equipped simulation laboratory used for skill training, guidance, and simulation.

During the visit partners have been showed how nursing students are trained to manage challenges they face in working life and secure the best possible care for patients using technological tools to re-create real life situation through simulations and meaningful scenarios setting.
