

Supplied Activities

At the Hospital is the active service of Transfusion Medicine , function provided by the Department of Transfusion Medicine.

The functional Transfusion Service essentially performs the following functions:

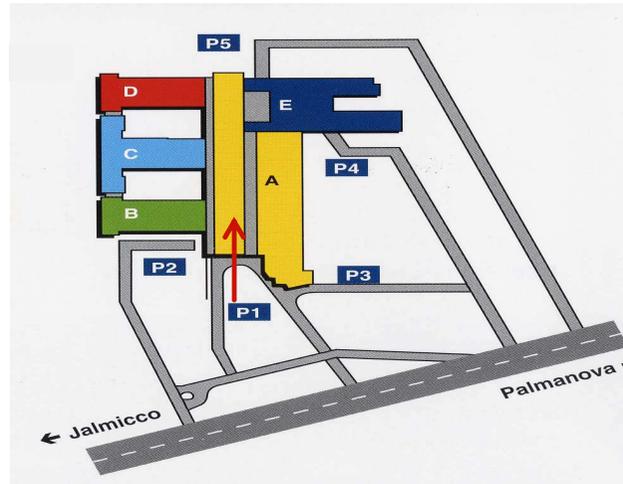

- ensures that patients admitted on-site availability of blood and blood components, supporting clinicians on the issues of appropriateness and safety of blood transfusions;
- performs the task of collecting whole blood, plasma and platelets from volunteer donors;
- performs blood lettings from Monday to Thursday from 11:00am to 12:00am prior appointment;
- taking of a blood sample for "sierocollirio" on Tuesday at 10:30am prior appointment.

For more information please contact the secretariat.

Donors must always show the Health Card and a valid Identity Document

Update January 2023

How to reach blood transfusion medicine: Entrance from the parking lot P1 Corpo A - Piano interrato "Body A - Basement"

The gift of blood is an open and free gesture, by one person to another

Requirements to become donors

No special or physical skills are needed to be donor, nor courage, since a donation gesture is completely painless and harmless and it produces no negative effect on the organism.

The donor must be a healthy person, in good health conditions, of a weight of not less than 50 kilograms, between the ages of 18 and 70 years (60 years at the first donation).

Pregnancy represents an element of a temporary unfitness, up to one year after childbirth.

The whole blood donation can be repeated not before expiry period of 90 days. For men, no more than 4 times a year, while for women no more than 2 times per year.

Fasting is not necessary, you can eat a light breakfast (tea, coffee, juice) paying attention to eliminate fatty foods.

Not only blood donation

In addition to blood, you can also donate plasma and platelets.

Plasma donation is called aphaeresis; it withdraws only the liquid part of the blood with the exclusion of the corpuscular one. The donation of only platelets is called platelets-aphaeresis.

Donating blood is safe and allows a control of your health

Donors are welcomed from Mondays to Fridays, from 8:00am to 10:30am, only by appointment. Sunday by reservation only on the dates agreed with the Voluntary Associations as scheduled. The donation of plasma, platelets and an agreed number whole blood is made by appointment only by:

- calling at number 0434 223 522 from Monday to Friday, from 7:00am to 7:00pm and Saturday from 8:00am to 2:00pm
- **AFDS** APP "IODONO"
- **AVIS e GADAS** through their respective presidents

Meetings /Talks with donors are carried out, by appointment, from Monday to Friday from 11:00am to 1:00pm and Saturday from 11:00am to 12:30.

The questionnaire of admission to donation is available on the company Web site at www.asufc.sanita.fvg.it at the link https://asufc.sanita.fvg.it/it/schede/bachecca_donatore.html
